Care Fees

Continuing healthcare should be provided **free of charge** by the NHS to people whose primary need for care is because of their **health** regardless of their means or care-setting.

Far too often incorrect assessments are made, or **reviews** not undertaken, leading to unnecessary and very costly fees being paid (which can be many **tens of thousands of ££** and over long periods of time) with own homes being sold.

KG Solicitors are currently acting on behalf of hundreds of clients to recover Care Fees which in many cases have been **incorrectly** charged.

In many cases we hope to be successful and could recover millions of pounds.

If you would like to know whether we can help you or your family then call us now and speak to us about your claim on **01254 685 187** or complete our online **"Call Back Request"** box

and a member of our team will contact you shortly.

Family Law

We can deal with all aspects of family problems and offer a unique, personal service to our clients.

The Head of our family law department has over **20 years experience** and is **fully accredited** as a **specialist with Resolution** (the association representing family lawyers in England). We have a trained mediator, if one is required.

Industrial Deafness

Industrial deafness is a condition which is associated with excessive noise in the workplace and is triggered by prolonged exposure to excessive levels of noise. Tens of thousands of people in the UK suffer from noise induced hearing loss as a result of their working environment.
